1.1.5 Terminating a Patient-Physician Relationship

Physicians’ fiduciary responsibility to patients entails an obligation to support continuity of care for their patients. At the beginning of patient-physician relationship, the physician should alert the patient to any foreseeable impediments to continuity of care.

When considering withdrawing from a case, physicians must:

(a) Notify the patient (or authorized decision maker) long enough in advance to permit the patient to secure another physician.

(b) Facilitate transfer of care when appropriate.

1.1.5 Terminating a Patient-Physician Relationship

Physicians’ fiduciary responsibility to patients entails an obligation to support continuity of care for their patients. At the beginning of patient-physician relationship, the physician should alert the patient to any foreseeable impediments to continuity of care. [New language makes obligations to patients explicit.]

When considering withdrawing from a case, physicians must:

(a) Notify the patient (or authorized decision maker) long enough in advance to permit the patient to secure another physician.

(b) Facilitate transfer of care when appropriate. [New content addresses gap in current guidance.]
